TO WHOM IT MAY CONCERN

We have reviewed the list of “essential workplaces” that was released on March 23, 2020 by the Ontario government as a follow-up to their Mandatory Closure of Non-Essential Workplaces during the current COVID-19 pandemic.

Jordahl Canada Inc is a steel manufacturer that supplies construction projects including healthcare facilities, bridges, commercial buildings, institutional buildings, and residential buildings.

As such, we are deemed an “essential workplace” and will continue to operate during this current shut-down.

Our production staff is encouraged to practice social distancing and frequent hand washing while working.

While the majority of our office staff is working remotely, we can be reached at our usual phone numbers and email addresses.

If you have any questions or require additional information, please do not hesitate to contact us.

Yours Sincerely,
JORDAHL® CANADA INC

Neil Hammill, M.Sc., P.Eng.
President

Markus Bulla
Chief Financial Officer
